Subject: Conditional Approval of Permit Transfer and Amendment, Kilgore Companies LLC, Lincoln Quarry, M/049/0086, Utah County, Utah

Dear Mr. Kilgore:

The Division of Oil, Gas and Mining approves the transfer of the Notice of Intention to Commence Large Mining Operations (Notice) from Ames Construction, Inc., to Kilgore Companies, A Delaware limited Liability Company (Kilgore). Kilgore is now solely responsible to conduct mining operations as outlined in the approved Notice. Ames Construction, Inc., is hereby released from any further reclamation liability under this permit.

Together with this transfer, the Division approves a replacement page showing the new ownership and control information, and a page and a map showing the addition of a hot plant. The reclamation surety was increased \$50,000.00 for removal of this facility, and the Division considers this amount adequate.

The hot plant amendment and the transfer are approved with the following conditions which need to be addressed by September 15, 2015:

- Update the existing Notice using replacement pages to incorporate your name and contact information as the new operator of the Lincoln Quarry, and
- Incorporate the approved hot plant into the existing Notice (as text and maps) and the reclamation surety calculations using replacement pages.

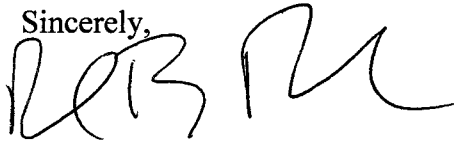

You must comply with all of the operation practices of R647-4-107, and approval of a Notice does not relieve an operator from its responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations.

Thank you for cooperation in completing this permit transfer. Please refer to file M/049/0086 in any correspondence regarding this operation. Please contact April Abate at 801-538-5214 or me at 801-538-5261 if you have questions regarding this approval.

Sincerely,

A handwritten signature in black ink, appearing to read 'Paul Baker', written over a horizontal line.
